Please fill out your SCA Technical and Marketing Committee Member contact information.

The Slag Cement Association's Technical and Marketing Committee (TMC) meet quarterly with each member company getting 1 voting representative. However, all member companies can have as many employees on the committee as they would like. The TMC oversees all promotional and technical association activities including: the annual awards program, marketing activities, technical resource development, monitoring slag cement related codes and standards, industry partnerships, and national scale educational sessions, speaking events, and webinars.

Phone Number:

Please fill out your Shipment Reporting contact information.

The Slag Cement Association provides monthly reports of aggregated shipping data to its members. Monthly shipping data is collected by the SCA Accounting Office and should be emailed directly to Stacey Clement (Stacey.clement@slagcement.org.) **The shipping data is due to Stacey Clement by the 10th of each month for the prior month. NOTE: Shipment data are confidential and should only be sent to Stacey Clement.** Individual company data are not distributed between companies. Data are aggregated into a U.S. shipment (tonnage) summary report on a monthly basis. This monthly summary report is made available to all SCA members. To maintain confidentiality of data, reports of shipments (tonnage) by state or region are not provided.
